CAREER OBJECTIVE

MCA student specializing in Artificial Intelligence and Machine Learning with knowledge of Python, Java, SQL, Data Analysis, Machine Learning, Database Management, and Web Technologies, seeking an entry-level IT/Software role where technical, analytical, and problem-solving skills can be applied to software development, enterprise applications, data-driven solutions, and technology projects.

EDUCATION

Master of Computer Applications (MCA)

Ramdeobaba University | 2025 – 2027

CGPA: 8.15

Bachelor of Computer Applications (BCA)

Shri Shivaji Science College, RTM Nagpur University | 2022 – 2025

CGPA: 7.95

Higher Secondary Certificate (Class XII)

Maharashtra State Board | **91.50%**

Secondary School Certificate (Class X)

Maharashtra State Board | **79.40%**

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, SQL

Database: MySQL, Database Management Systems (DBMS), SQL Queries

Data Analytics & Machine Learning: Data Analysis, Data Preprocessing, Data Visualization, Machine Learning, Scikit-learn

Python Libraries: Pandas, NumPy, Matplotlib

Web Technologies: HTML, CSS, JSP

Programming Concepts: Object-Oriented Programming (OOP), Classes, Encapsulation, Abstraction

Tools & Platforms: Power BI, Eclipse, Visual Studio Code, Google Colab

ACADEMIC PROJECTS

Student Performance Analysis System

Technologies: Python, Pandas, Matplotlib, Google Colab

- Developed a data analysis system using Python and Pandas to analyze student academic performance.
- Performed data preprocessing and analysis on CSV datasets.
- Calculated total scores, average marks, topper details, and subject-wise performance.
- Created data visualizations using Matplotlib, including bar charts and pie charts.
- Used analytical techniques to identify and present performance patterns in student data.

Hospital Queue Management System

Technologies: JSP, Java, MySQL

- Developed a web-based hospital queue management system to manage patient appointments efficiently.
- Implemented token generation and appointment booking functionality.
- Developed a doctor dashboard with a “Call Next” feature for efficient queue handling.
- Managed patient and appointment information using a MySQL database.
- Applied Java programming and database management concepts to develop the system.

Online Course Registration System

Technology: Java

- Developed a console-based course registration system using Java and Object-Oriented Programming concepts.
- Implemented student management and course enrollment functionality.
- Applied classes, encapsulation, and abstraction to structure the application.
- Used OOP concepts to organize application functionality and data.

CERTIFICATIONS

- **Microsoft Power BI Data Analyst Certification – Coursera**
- C Programming Certification
- C++ Programming Certification
- GCC-TBC English Typing Certification – 30 WPM
- GCC-TBC English Typing Certification – 40 WPM
- Connect and Protect: Networks and Network Security

WORKSHOPS & SEMINARS

Interactive Seminar on Databricks

Databricks & SS Infotech

- Participated in a one-day seminar covering Data Engineering, Big Data Analytics, Cloud Computing, and Data Processing.
- Gained exposure to modern data platforms and their applications in the technology industry.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- Participated in a 6-member hackathon team, contributing to project development and presentation.
- NCC 'C' Certificate Holder
- NCC 'B' Certificate Holder

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Leadership
- Team Collaboration
- Communication
- Quick Learning

ADDITIONAL INFORMATION

Career Interests: Software Development, IT Operations, Data Analytics, Machine Learning, Enterprise Applications
